## DETAILED ACTION

### *Allowable Subject Matter*

The following is an examiner's statement of reasons for allowance:

Claims 1, and 14, are allowed. The prior art discloses a cellular radio network for conveying signaling information from transmitter to receiver in a traffic channel in discrete transmission bursts consisting of symbols or bits specially used for signaling purposes.

The prior art however fails to disclose or suggest that the symbols carrying the signaling information are transmitted as a **block of consecutive** symbols in a transmission burst of a traffic channel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
